Stops enzyme reactions

Gel Loading Dye, Purple (6X), no SDS, is included in most DNA ladders and markers. This unique loading buffer does not cast a UV shadow over the underlying bands, unlike conventional Bromophenol Blue containing loading buffers.

TERMS & CONDITIONS: Offer valid in Canada only. Expires Sept. 30<sup>th</sup>, 2024. Discount is eligible for products listed on this flyer. Purchase can be made online at www.neb.ca or through a NEB freezer program. Eligible products get discounted automatically when added to cart. Promotion not valid for cash or cash equivalent towards purchase(s). No substitutions. Offer may not be applied to existing, pending or prior orders. Cannot be combined with any other promotion or discount. One or more of these products are covered by patents, trademarks and/or copyrights owned or controlled by New England Biolabs, Inc.
